IPP Summer Student Program: Undergraduate Research Experience in Canada & CERN

- Join active researchers at CERN in Geneva, Switzerland
- Participate in the renowned CERN Summer Student Lecture Program
- Receive stipend and travel reimbursement

CERN, the European Laboratory for Particle Physics, is the home of the Large Hadron Collider (LHC) and the birthplace of the World Wide Web.

The Institute of Particle Physics supports Canadian undergraduate students participating in the CERN summer student program.

Application deadline for 2020: 14 January 2020
